

Harvest Festival 2020

Traditionally this would be the time of year we visit schools, churches and community groups across Stirlingshire to talk about how you can support Start Up Stirling during Harvest Festival.

But unfortunately, we cannot do that this year. Although we cannot meet with you, we are in awe of the community spirit and generosity everyone throughout Stirlingshire has shown us during the pandemic.

You have helped ensure that everyone referred to us can receive a delivery to their home via our Home Delivery Foodbank. You have also ensured that we have plenty of stock so we can continue to support those in need within the community.

Unfortunately, however, we expect more people than ever will need our support as the impact of the pandemic continues.

So, this Harvest Festival, you can help us keep reaching those who need support by doing one of the following three things:

- 1) You can donate food items for our Food Packs using our Donation Stations at supermarkets across Stirling. These goods will be delivered to individuals and families referred to us via the Home Delivery Foodbank.
- 2) You can donate items for our Starter Packs using our Amazon Wishlist. These items will then arrive safely arrive at our unit and will be given to people who are commencing new tenancies following a crisis and include essentials such as warm bedding, clean towels and cooking utensils. Please visit - www.amazon.co.uk/hz/wishlist/ls/2CT04HHWBMXV8
- 3) You can donate funds via our website which will go towards the purchase of goods and the running of our Home Delivery Foodbank - please visit startupstirling.org.uk/donate

Thank you all so much for your ongoing support.

Start Up Stirling would not be possible without your kindness and generosity.
